High-Performance IP54/40 - Downlight Fixture

The Snow Series is a professional downlight solution that combines durability, aesthetics, and high performance with its aluminum injection-molded body and frame structure. Thanks to its simple design and homogeneous light distribution, it offers comfortable lighting in offices, shops, hotels, educational institutions, and commercial spaces.

The seal detail used between the body and frame provides IP40 and IP54 protection options, while its robust construction and high-quality materials ensure long-lasting performance.

Available in Ø90, Ø150, Ø190 and Ø230mm diameter options to meet various ceiling height and lighting needs.
