Modular Square Surface Mounted Spot Light Luminaire

The PERLA-SK Series is a professional surface-mounted spotlight solution developed for architectural projects, featuring a square-shaped, deep reflector structure and an optical design that provides low glare. Its modern formula, distinctly separated from the ceiling, offers controlled and comfortable lighting while giving the space a strong architectural character.

With single, double, and triple module options (SK1, SK2, and SK3), it provides flexible lighting solutions. Thanks to its modular structure, different light distributions and spatial arrangements can be created while maintaining the same design language.

Available in white and black body alternatives, the PERLA-SK Series adapts to different architectural concepts and can be used in shops, offices, galleries, social areas, and commercial projects for both general and accent lighting applications.

General Information		Electrical Info		Lighting Technology	
Housing	Aluminum Injection	**Power**	11-33W	**Light Output Angle**	35°
Frame	DKP Metal Sheet	**Power Factor**	>0.95	**UGR Value**	UGR ≤ 22
Optics	Polished Reflector	**Light Source**	COB LED	**CRI [Ra]**	CRI ≥ 80
Paint	Electrostatic Powder Coating	**Cabling**	Halojen-Free	**Color Bin Value**	Mc Adams ≤ 3
Insulation Class	Class II	**Input Voltage**	220-240V AC / 50-60 Hz		
Product Dimensions [mm]	100(W)x100/200/310(W)x130(H)	**LED Driver**	Constant Current		
Mounting Type	Surface	**Ambient Temperature**	-20°C / +50°C		
Mounting Part	Screw Dowel Set	**LED Lifetime L70**	>50.000 Hour		

Optional
DALI / 1-10V
CRI>90 , 2700K~6500K , Tunable White
Emergency Lighting Kit

Order Code	W	Lm	Angle	CCT	WxLxH (mm)	Product Type	Kg
