SNOW IP65

05393

High-performance IP65 downlight fixture.

The Snow IP65 Series is a professional downlight solution that combines high durability, aesthetics, and performance with its aluminum injection molded body and frame structure.

Developed to achieve IP65 protection class, its special structure features a silicone seal under the glass cover, sealing gaskets used between the body and frame, and an IP65 connector detail working together to provide high protection against dust and moisture. This ensures reliable and long-lasting performance in demanding operating conditions.

Available in Ø190 and Ø230 mm diameter options, the Snow IP65 Series adapts to different ceiling heights and lighting needs, combining aesthetics with durability in indoor applications requiring high protection.
