

TARGET 05115

Recessed Architectural Wallwasher Lighting Fixture

Target is a recessed wallwasher luminaire developed to illuminate wall surfaces homogeneously and controllably. Its slim and linear form highlights architectural details. By directing light evenly across the surface, it adds depth and an aesthetic appearance to the space.

Thanks to its deep reflector structure, it conceals the light source, offering a comfortable lighting experience with its low glare. Its minimalist design, integrated with the ceiling surface thanks to its flush mounting, allows only the illuminated surface to stand out, giving modern architectural projects a simple and elegant character.

It offers solutions for corridors, offices, hotels, shops, museums, galleries, and decorative wall applications. It emphasizes vertical surfaces with its wallwashing effect.

General Information		Electrical Info		Lighting Technology	
Housing	Aluminum Injection	Power	9W	Light Output Angle	83°
Optics	PC Optical Reflector	Power Factor	>0.95	UGR Value	UGR ≤ 22
Paint	Electrostatic Powder Paint	Light Source	High Power LED	CRI [Ra]	CRI ≥ 80
Insulation Class	Class II	Cabling	Halojen-Free	Color Bin Value	Mc Adams ≤ 3
Product Dimensions [mm]	155(W)x50(L)x51(H)	Input Voltage	220-240V AC / 50-60 Hz	Optional DALI / 1-10V CRI>90 , 2700K~6500K , Tunable White Emergency Lighting Kit	
Mounting Type	Recessed	LED Driver	Constant Current		
Mounting Part	Steel Spring	Ambient Temperature	-20°C / +50°C		
		LED Lifetime L70	>50.000 Hour		

Order Code	W	Lm	Angle	CCT	WxLxH (mm)	Ceiling Cutting (mm)	Kg
