

FEDORA-SQ

03170

It combines light and acoustics in a square form

Fedora-SQ combines lighting and acoustics in a single product by integrating the Corvus Inn circular luminaire body with a sound-absorbing acoustic felt panel. Thanks to its semi-recessed design, the luminaire creates an integrated look with the felt panel, adding an aesthetic touch to modern architecture.

Providing homogeneous and comfortable lighting with its opal diffuser, Fedora-SQ reduces ambient reverberation with its acoustic felt structure, creating a quieter atmosphere in work and living spaces. With different felt colors and panel sizes that can be produced according to project needs, it offers an aesthetic and functional hybrid solution for offices, meeting rooms, training areas, social areas, and open office projects.

General Information		Electrical Info		Lighting Technology	
Housing	Aluminum Extruded	Power	30W	Light Output Angle	120°
Panel	Acoustic Felt	Power Factor	>0.95	UGR Value	UGR ≤ 22
Optics	Opal Diffuser	Light Source	SMD Mid Power LED	CRI [Ra]	CR ≥ 80
Paint	Electrostatic Powder Paint	Cabling	Halogen-Free	Color Bin Value	Mc Adams ≤ 3
Insulation Class	Class I	Input Voltage	220-240V AC / 50-60 Hz	Optional DALI / 1-10V CRI>90 , 2700K~6500K , Tunable White Emergency Lighting Unit	
Product Dimensions [mm]	1000(W)x1000(L)x60(H)	LED Driver	Constant Current		
Mounting Type	Pendant	Ambient Temperature	-20°C / +50°C		
Mounting Part	Height Adjustable Steel Wire	LED Lifetime L70	>50.000 Hour		

Order Code	W	Lm	CCT	L (mm)	Kg
03170.10.30.029	30W	2950	3000	1000x1000x60	4,20
03170.10.40.029	30W	3100	4000	1000x1000x60	4,20
