
TITAN-M

09294

Small Size, Big Performance

Titan-M is a compact LED floodlight developed for outdoor lighting applications. Its die-cast aluminum housing, tempered clear glass, and efficient acrylic optical lens system direct light to the target surface in a controlled and efficient manner. With 30°, 60°, 90°, 120°, and asymmetrical light distribution options, it offers a single product solution for different project needs.

Thanks to its IP66 protection class and durable electrostatically powder-coated housing, it ensures long-lasting use in harsh outdoor conditions. Its compact size, easy installation, and high optical performance make it a reliable solution for building facades, landscape areas, walkways, perimeter lighting, and small-scale architectural accent applications.
