# 07307

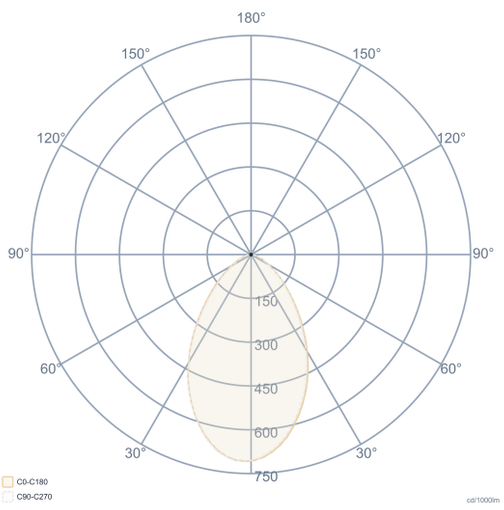

## One luminaire, maximum flexibility.

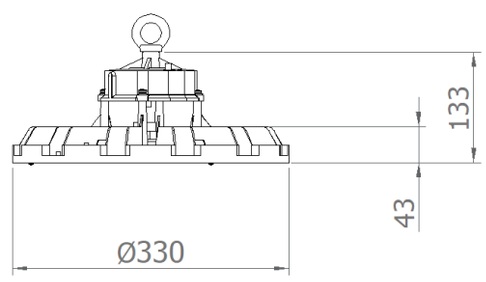

Voltar is a highbay luminaire that provides powerful and controlled lighting in high-ceilinged and high-volume industrial areas. Its aluminum injection-molded housing, IP65 protection class, and IK10 impact resistance ensure it adapts to demanding operating conditions.

Thanks to 60°, 90°, and 110° optical options, it allows for light direction according to different ceiling heights and usage scenarios. It offers approximately 16,000–29,600 lm of luminous flux with 100W, 150W, and 200W power options.

It provides a reliable and flexible lighting solution for large and high-volume areas such as warehouses, factories, gymnasiums, and tunnels.
